

# Wi-Poster

The World's First Wirelessly Powered Large Format Digital Displays

## Revolutionize Digital Signage

### Wireless Power for E Ink Displays

Say goodbye to the limitations of cables and batteries. With Wi-Charge's Wi-Poster, your organization can communicate as never before—freely, flexibly, and efficiently. Wi-Charge, the global leader in wireless over-the-air electricity, is powering E Ink innovative Spectra 6 large-format color displays, available in 13" - 40" sizes, enabling effortless deployment of digital signage.

## Why Choose Wi-Charge's Wi-Poster?

### Wireless Electricity Meets Cutting-Edge Displays

Wi-Poster pairs Wi-Charge's patented wireless charging with vibrant, durable E Ink Spectra 6 panels, delivering hassle-free, over-the-air power without wiring or battery replacements.

### Timely Messaging Without Limits

Forget battery constraints! With Wi-Poster, you can update content on your displays as many times as you wish, ensuring your audience always sees the right message at the right moment.

### Flexible Positioning

Wi-Charge's wireless power delivery gives you freedom and Wi-Poster ensures your messaging can be positioned in the best place for it to be seen, not just where the nearest plug is located.

### Sustainable, and Approved

Wi-Charge's technology is regulatory-compliant and environmentally friendly, eliminating disposable batteries and paper waste to support your sustainability goals and enhance customer engagement.

### Durable One-Sided or Double-Sided Displays

Boost your impact with E Ink displays featuring durable Gorilla Glass. Their single or double-sided elegant design ensures maximum visibility for your messaging, with minimal hardware required.

### Versatility Across Industries

From retail stores to financial institutions, transit hubs, and more, Wi-Poster adapts to a variety of environments, making it the perfect solution for digital signage in any industry.

## Transform Communication Without Constraints

Whether your goal is to engage shoppers, provide information, inform commuters, or captivate audiences, Wi-Poster delivers.

### Simplified Operations

No cables, no batteries—just power.

### Reduced Maintenance Costs

Fewer resources spent on upkeep.

### Enhanced Flexibility

Install anywhere and move easily
